ABOUT ME

I have 4 hobbies: work, traveling, sport, reading. I always trying to connect this 4 things.

I learn new stuff every day to be on a top of Android technologies and best practices. I have been working with Android more than 5 years and I'm working with technologies like:

1. Android
2. Java
3. Gradle (Groovy)
4. XML
5. JSON
6. HTML
7. GIT

I have experience with **Android Studio, Eclipse**.

I have experience work with **Android TV, mobile, tablets**, knowledge with base Android components like **Activities, Fragments, Services**, and eth.

I often use in project libraries and tools like **Android Support Library, Dagger 2, ButterKnife, EventBus, ViewPager, RX JAVA, ORMLITE, AppsFlyer, Optimizely** and another common libraries.

I'm trying to follow in my project **code style, best practices, and use documentation**. and best experience of **OOP** programming: **patterns, SOAP, DI** and eth.

By the way, I interesting in time-management and management overall.

Most my free time I'm trying to release my ideas in real life.

I'm loving to be a team member. It's a great opportunity to share your experience and meet a great people.

Whom want to look at my code **GO HERE:** https://github.com/TarasMatolinets/video_diary.

I'm one of the top developers in Upwork as well.

My profile <https://www.upwork.com/freelancers/~012785f00dee2ac800>

My simple published apps:

Project Team Size: 4

No company

03 03 2015 - 03 04 2015

Android Developer

Project Name: Video Diary

Project Description:

This application is a great discovery for those who have their video blogs. If you are a YouTube, Facebook or other social network user, VIDEO DIARY is exactly what you need!

You don't need to be connected to the Internet to use this application. Having a modern design, it enables you with an amazing opportunity to make notes and diary entries, and then share them with your friends.

We all live in a busy world where from time to time we need to give speeches or presentations. Video Diary also gives you a splendid chance to improve your public speaking skills. Having recorded the video, you'll be able to play it again, spot your mistakes, and then work on them to become a better speaker.

So hurry up and don't miss your chance to make your first VIDEO DIARY entry!

Google play:<https://play.google.com/store/apps/details?id=mti.com.videodiary>

Responsibilities in the project:

1. Developed app with Dagger2 + RXJAVA + MVP + layer pattern

Project Team Size: 1

Lezgro

04 22 2014 - 04 01 2015

Android Developer

Project Name: Wirkn

Project Description:

This app gives users the ability to create a video profile that allows them to "Show Their Personality" to apply for employment — certainly a different direction that rivals Workopolis and Monster with the standard job postings. The app goes beyond getting hired and encourages "building meaningful connections with your coworkers and your larger work community. Wirk'n empowers you to express yourself with a dynamic video profile. Show your skills and accomplishments to stand out from the crowd. Create your profile once and apply for multiple jobs in a matter of minutes. Wirkn empowers you to express yourself with a dynamic video profile. Show your skills and accomplishments to stand out from the crowd.
